COMPANY PROFILE

www.zordiam.co.za

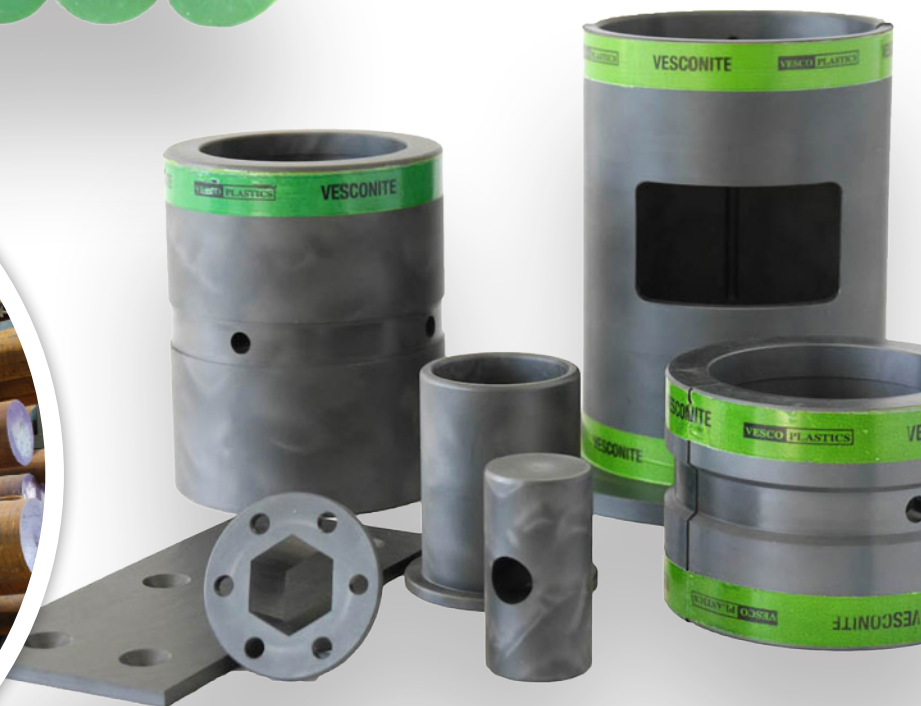

Engineering Solutions

A division established and originally commenced in 1995 as a family owned and management business and expanded over the years with a variety of Engineering Products and Consumables. Better known as SJ Sales Kimberley, the division was well known and build throughout the years with continues support from our loyal customers.

As everybody's future is unknown changes were made and SJ Sales and was sold to a 3rd Party in 2017. Still operating in Kimberley with original staff and servicing the customers locally, Zordiam Holdings (PTY) started with negotiations and discussion with Management of SJ Sales Kimberley and successfully took ownership in March 2021. With the family back in business and expertise in our field we strive to meet our customers requirements.

Our Engineering Division stock Iscar and FEW Lathe Tools, Welding Machines and Consumables, Engineering Special Steels and Plastics, King Tony and Titan Hand Tools as well as Lukas Abrasives and Aluminium Hardware. With continued expansion to our Divisions customers can be assured of our Accountable Quality Solutions.
